

System Upgrade

Dear Members,

The technical portion of our system upgrade is complete. All systems have been upgraded and converted. We appreciate your patience and apologize for any inconvenience during this process. The upgrade to our financial and technology systems was needed both in scope and timing.

The new state of the art system will enable Lesco FCU to offer more secure digital financial services needed by our members.

The upgraded digital banking platform, compatible with smartphones, computers and other personal digital devices provides you with all of your account information. The ability to pay your Lesco Visa credit card or your Lesco loan is at your fingertips with a click of a button on the new online banking platform. Have you ever needed a printout of a cleared check? You can now retrieve and print a personal processed check from the comfort of your home through online banking. Services like these will be available with the new system!

Although these new digital services are convenient and efficient in today's technological world, Lesco FCU is still committed to YOU, our member. If you prefer personal service, our staff has you covered. Our commitment to personal service is stronger than ever when it comes to meeting your financial needs. When you come into the office, you will still be treated with the prompt, friendly service that you expect at Lesco!

Sincerely,

Lesco FCU Staff and Board of Directors

PS. Our Lesco Mobile App is available for download in the App Store (iPhone) and the Google Play Store (Android). It is the Lesco app with the white background. Please use your newly created username and password to log-in to the app.
